

Your Mac® Data. Recovered.

Ontrack offers a comprehensive do-it-yourself software for businesses and individuals in need of data recovery for data stored on Mac®. With Ontrack® EasyRecovery™ for Mac, users are able to perform safe and precise recoveries of lost documents, photos, music files, or videos that have been accidentally or intentionally deleted from their file system. Our easy-to-use interface allows even the most novice users to recover their data with minimal effort.

Best-in-class Features

- Recover Permanently Deleted Files with tested algorithms that can successfully restore permanently deleted data.
- Quick Scan and Advanced Scan options allows you to scan deleted files efficiently for a fast recovery or perform a more in-depth scan for files which were deleted due to formatting or corruption.
- Restore Deleted Volumes by locating and rebuilding corrupt, damaged or deleted volumes on any HFS, HFS+, FAT, NTFS, or ExFAT formatted drive.

Ontrack® EasyRecovery™ Free

With up to 1 GB of free recoverable data, Ontrack EasyRecovery gives you the ability to reclaim deleted files, revive lost Mac volumes, recover Apple® Time Machine® backup drives and much more.

Ontrack® EasyRecovery™ Home

An easy-to-use data recovery solution for individuals who have lost irreplaceable data such as digital photos, movies, music and important documents. An application built for your pace, recover permanently deleted files, perform Apple Time Machine backup drive recoveries and much more.

Ontrack® EasyRecovery™ Professional

Professional grade recovery for lost and deleted files, folders, documents, photos and more. Ontrack EasyRecovery Professional can recover from multiple data loss events like accidental deletion and formatting, including data loss after severe corruption of the hard drive.

Ontrack® EasyRecovery™ Technician

With an improved user interface, Ontrack EasyRecovery Technician gives users the tools needed to perform RAW recoveries on lost Mac volumes and from encrypted file systems. This license allows you to perform recoveries of your client's critical data.

Free Data Recovery for up to 1GB

With our free version of Ontrack EasyRecovery you are able to recover 1GB of data for free.
