

# Our data recovery capabilities

Data recovery service options

#### In-lab services

Data recovery performed by security experienced lbas Ontrack® data recovery engineers – this service is designed for storage media and platforms that have sufferered from both physical hardware and logical software failures.

### Remote data recovery<sup>™</sup> services

Data recovery performed remotely through an internet connection. This service performs lab-quality recovery right on your server, laptop or desktop bringing the data back online in a fraction of the time it takes to restore from a backup. RDR Services are available when hardware is functioning normally and a secure connection can be made to a client's system.

#### On-site services

Data recovery performed at your location by Ibas Ontrack data recovery engineers for the most critical and sensitive logical data loss situations.

## **Custom solutions**

Data recovery for your proprietary and/or highly complex systems. Our R&D team works with your IT staff to create customised recovery tools to extract your lost data.

Ibas Ontrack® data recovery services offer industry leading solutions to recover data from virtually any type of data storage device.

Utilising a suite of proprietary recovery tools and the most experienced data recovery engineering team in the world, our services are uniquely equipped to solve even the most extreme data loss scenario.

| Benefit  | Standard<br>Service | Express<br>Service | Emergency<br>Service |
|--|---------------------|--------------------|----------------------|
| World's leading recovery service                             |                     |                    |                      |
| Free evaluation of media                                     |                     |                    |                      |
| Dedicated Data Services Representative support               |                     |                    |                      |
| Class 100 Cleanrooms   |                     |                    |                      |
| Expedited service  |                     |                    |                      |
| Saturday service   |                     |                    |                      |
| 24-hour, 7-days a week until the job is completed            |                     |                    |                      |
| File recovery report provided before you commit to recovery* |                     |                    |                      |

<sup>\*</sup>A fee is requested for this service.

This guide outlines an extensive list of technologies that our engineers can service for data recovery. In addition to offering data recovery services on these listed items, our in-house Custom Solutions group has the expertise to develop customised recovery tools and methods for less commonly used and/or proprietary systems and databases. Contact an Ibas Ontrack Data Recovery specialist for more information.
